

WARRANTY

In this emissions limited warranty, the term "Manufacturer" means Yanmar Co., Ltd. (Yanmar) as the holder of the U.S. Environmental Protection Agency (U.S. EPA) Certificate of Conformity and California Executive Order for the vehicle. The emission control limited warranty is in addition to the standard limited warranty for your vehicle.

Your Bobcat dealer is authorized to perform all warranty and service repairs on your diesel engine. To locate a Bobcat dealer, visit www.bobcat.com or call 1-800-743-4340.

Emissions Control System Warranty

Your Warranty Rights and Obligations: The California Air Resources Board (CARB), the United States Environmental Protection Agency (EPA) and Yanmar Co., Ltd., hereafter referred to as the Manufacturer, are pleased to explain the **emission control system warranty** on your 2011 and subsequent model year industrial compression-ignition engine. California-certified, new off-road compression-ignition engines must be designed, built and equipped to meet the State's stringent anti-smog standards. In the remaining forty nine (49) states, new off-road compression-ignition engines must be designed, built and equipped to meet the United States EPA emissions standards. The Manufacturer must warrant the emission control system on your engine for the periods of time listed below provided there has been no abuse, neglect or improper maintenance of your engine. Your emission control system may include parts such as the fuel injection system and the air induction system. Also included may be hoses, belts, connectors and other emission-related assemblies. Where a warrantable condition exists, the Manufacturer will repair your off-road compression-ignition engine at no charge to you including diagnosis, parts and labor.

Manufacturer's Warranty Period: 2011 and subsequent model year off-road compression-ignition engines are warranted for the periods listed below. If any emission-related part on your engine is found to be defective during the applicable warranty period, the part will be repaired or replaced by the Manufacturer.

Engine Type	Warranty Period by Number of Years or Hours of Operation
Constant speed engines rated at or above 37 kW	The warranty period is five (5) years or 3,000 hours of use, whichever occurs first. In the absence of a device to measure the hours of use, the engine has a warranty period of five (5) years.
Constant speed engines rated under 37 kW with rated speeds greater than or equal to 3,000 RPM	The warranty period is two (2) years or 1,500 hours of use, whichever occurs first. In the absence of a device to measure the hours of use, the engine has a warranty period of two (2) years.
Engines rated at or above 19 kW	The warranty period is five (5) years or 3,000 hours of use, whichever occurs first. In the absence of a device to measure the hours of use, the engine has a warranty period of five (5) years.
Engines rated under 19 kW	The warranty period is two (2) years or 1,500 hours of use, whichever occurs first. In the absence of a device to measure the hours of use, the engine has a warranty period of two (2) years.

Warranty Coverage: This warranty is transferable to each subsequent purchaser for the duration of the warranty period. Repair or replacement of any warranted part will be performed at an authorized dealer. Warranted parts not scheduled for replacement as required maintenance in the owner's manual shall be warranted for the warranty period. Warranted parts scheduled for replacement as required maintenance in the owner's manual are warranted for the period of time prior to the first scheduled replacement. Any warranted parts scheduled for replacement as required maintenance that are repaired or replaced under warranty shall be warranted for the remaining period of time prior to the first scheduled replacement. Any part not scheduled for replacement that is repaired or replaced under warranty shall be warranted for the remaining warranty period. During the warranty period, the Manufacturer is liable for damages to other engine components caused by the failure of any warranted part during the warranty period. Any replacement part which is functionally identical to the original equipment part in all respects may be used in the maintenance or repair of your engine, and shall not reduce the Manufacturer warranty obligations. Add-on or modified parts that are not exempted may not be used. The use of any non-exempted add-on or modified parts shall be grounds for disallowing a warranty.

Warranted Parts: This warranty covers engine components that are a part of the emission control system of the engine as delivered by Yanmar to the original retail purchaser. Such components may include the following: A. Fuel injection system; B. Cold start enrichment system; C. Intake manifold; D. Turbocharger systems; E. Exhaust manifold; F. Positive crankcase ventilation system; G. Charge Air Cooling systems; H. Exhaust Gas Recirculation (EGR) systems; I. Electronic Controls; J. Hoses, belts, connectors and assemblies associated with emission control systems.

Since emissions-related parts may vary slightly between models, certain models may not contain all of these parts and other models may contain the functional equivalents.

Exclusions: Failures other than those arising from defects in material or workmanship are not covered by this warranty. The warranty does not extend to the following: malfunctions caused by abuse, misuse, improper adjustment, modification, alteration, tampering, disconnection, improper or inadequate maintenance, or use of non-recommended fuels and lubricating oils, accident-caused damage and replacement of expendable items made in connection with scheduled maintenance. The Manufacturer disclaims any responsibility for incidental or consequential such as loss of time, inconvenience, loss of use of equipment / engine or commercial loss.

Owner's Warranty Responsibilities: As the off-road compression-ignition engine owner, you are responsible for the performance of the required maintenance listed in your owner's manual. The Manufacturer recommends that you retain all documentation, including receipts, covering maintenance on your off-road compression-ignition engine, but the Manufacturer cannot deny warranty solely for the lack of receipts or for your failure to ensure the performance of all scheduled maintenance. The Manufacturer may deny your warranty coverage if your off-road compression-ignition engine or a part has failed due to abuse, neglect, improper maintenance or unapproved modifications. Your engine is designed to operate on diesel fuel only. Use of any other fuel may result in your engine no longer operating in compliance with CARB and EPA emissions requirements. You are responsible for initiating the warranty process. You must present your engine to an authorized dealer as soon as a problem exists. The warranty repairs should be completed by the dealer as expeditiously as possible. If you have any questions regarding your warranty rights and responsibilities, or would like information on the nearest dealer or authorized service center, you should contact the department indicated in the vehicle standard warranty statement.
